AUDIOVISUAL
TECHNOLOGY

A solution for any classroom

Gone is the era where teaching was limited to only textbooks and journals. Technology has trickled into every aspect of our life, including the way education is being impacted. AV Technology in the classroom is no longer a phenomenon–whether it's interactive ultra short throw, ceiling mount or high lumens auditorium projectors, or the education-focused number one Interactive LCD Panel from Promethean. Konica Minolta / All Covered has a solution and the experts that will fit your classroom needs and hold student attention.

Projectors and ActivPanel Technology

EPSON BRIGHTLINK 1485Fi
(INTERACTIVE)
